

AB811 Informational Class

This class will provide you with essential information for property energy efficiency, savings on utility expenses, and the upfront funding available through the county's Energy Independence program to get started with Eco Friendly upgrades.

Oct 16, 2-5 PM Fee \$10.

NorBar 181 Stony Point Circle Santa Rosa

Sonoma Energy Independence Funding for AB811 **John Haig, Sonoma County Energy & Sustainability Manager**

John D. Haig, Jr., is employed by the County of Sonoma, General Services Department, as the Division Manager for Energy and Sustainability. He is a graduate of U.C. Berkeley (1977) and Golden Gate University School of Law, and has a varied background in Corporate Operations at Gap, Inc and in Facilities Management, holding the prestigious I.F.M.A. C.F.M/C.F.M.J. certifications.

Types of Audits & Home Performance Inspections **Barry Cogbill,**

Renewable & Energy Efficiency Specialist for Sustainable Spaces

Barry is passionate about solar and energy efficiency. After graduating from UC Riverside in 1988, his first venture into solar was as an installer. He currently works with property owners to develop and execute action plan to reduce their energy consumption, conserve water, and install renewable energy systems.

He is on the Board of Directors of Solar Sonoma County and chairs the Vendor Committee of the project. In this capacity, he is a liaison between the local installation community and the Department of Energy, and works with the County of Sonoma to ensure success of the newly launched Sonoma County Energy Independence Program.

HOME PERFORMANCE RETROFITTERS®

Green Point Rating System

Third Party Verification of Green Product & Installation

Tenaya Asan, Build It Green - Green Point Rater Program Manager

Tenaya Asan – GreenPoint Rated Program Manager

Tenaya brings 30 years of experience in the residential construction industry to her position as the Program Manager of the GreenPoint Rated program. She uses her new & renovation construction knowledge, management capabilities and collaborative abilities to direct this rapidly expanding program. Tenaya was a key strategist and manager in the development of the GreenPoint Rated Existing Home rating system, the first of its kind in the nation. She is responsible for overseeing rater training and certification; quality assurance for rated projects; providing education and support to builders, raters, designers and others; and developing new & renovation program protocols and procedures.

Presenters will provide a Q & A in panel forum the last hour of class.
